

MedSphere AI - Doctor Knowledge Base

Popular Diagnostic Centre Ltd. (Rajshahi) - Doctor Registry

Research-ready source compilation | Crawled/researched: 13 Aug 2026

Coverage note: This PDF contains 76 source-backed doctor profiles assembled from publicly indexed listings for the Rajshahi branch. The branch pages currently show conflicting totals across sources (e.g. Sasthya Seba reports 95 doctors, DoctorList.info.bd reports 71 specialists, while another directory reports 158). Because these totals do not reconcile, this edition is labeled Registry V1, not a definitive legal roster. Every profile includes a source URL and a clear indication when a direct image asset URL was not exposed by the indexed page.

Hospital: Popular Diagnostic Centre Ltd. | Rajshahi

Address: House #474, Chowdhury Tower, Laxmipur, Rajshahi, Bangladesh

Phone: +8809666787811

Primary source: Sasthya Seba branch doctor directory; cross-checked against Popular Diagnostic Centre official Find Doctors page and DoctorList.info.bd.

Coverage Summary

Specialty	Profiles captured
Cardiologist	5
Dermatologist	1
Diabetes	1
Endocrine Medicine	1
Endocrinologist	2
Gastroenterologist	5

Source & Verification Notes

Primary current directory source: Sasthya Seba - Popular Diagnostic Centre Ltd. | Rajshahi doctor directory. Its indexed pages reported 95 doctors, with specialty category counts. The current page explicitly shows the Rajshahi address and doctor profiles.

Official corroboration: Popular Diagnostic Centre Ltd. official Find Doctors page identifies the Rajshahi branch as “RAJSHAHI (U1, U2)” and publishes doctor names, credentials, specialities, visiting hours and practice days for many profiles.

Secondary corroboration: DoctorList.info.bd currently indexes Popular Diagnostic Center, Rajshahi at House No. 474, Chowdhury Tower, Lakshmipur, and states 71 specialist doctors across 23 departments. Its pages expose profile links and image references for many doctors. Because source totals differ, MedSphere AI should treat the registry as a living dataset with timestamped source snapshots.

Recommended database fields for MedSphere AI: doctor_id, normalized_name, honorific, gender_if_public, qualifications, specialties[], hospital_id, branch_id, designation, department, institution_affiliations[], experience_years, chamber_address, visiting_days[], visiting_hours[], appointment_phone[], image_url, image_source_url, profile_url, source_name, source_last_checked_at, verification_status, notes, created_at, updated_at.
